

# How to install Star Series driver?

APPLICABLE\_MODEL:Star 01,Star 02

1. Please connect USB to a computer.
2. Insert the driver included disc into your computer/notebook CD/DVD ROM drive, and then follow the instructions.

Windows OS: If the driver disc did not auto run installation, please explore the file and execute "setup.exe" or "install.exe" to install.

When the driver installation is completed, the small "" icon indicates the graphic tablet succeeded in installing the driver and is functioning properly.

Mac OS: Open the file list, find "Mac Driver" and run execution file "". Follow its install procedure/steps, then reboot the system.
